# Connecting Schools to

# Taman Negeri Selangor

## the forests that provide sustanence to life in Selangor

Building leadership qualities, giving students the opportunity to express themselves creatively, and connecting the youth with nature. TrEES' Climate Change & Biodiversity Programme for Schools is getting under way. In 2010, the programme continues to focus on Taman Negeri Selangor – the Forests that Provide Sustanence to Life in Selangor.

There is limited space left available. If your school would like to participate, please contact TrEES at: treateveryenvironmentspecial@gmail.com or call us at tel: 03-7876-9958 (pls leave a message!)

Activities will include:

- Training workshops
- Student run awareness campaigns
- Fieldtrips
- Friendly competition

All the activities are focused on raising awareness on the existence and importance of TNS and how students can help protect TNS by practicing the 4R's (rethink, reduce, reuse, recycle) in their daily lives.
