

14 February 2009

A Valentine to Mother Earth

This Valentine's Day, pledge a personal environmental action as a symbol of your love for Mother Earth.

The pledge can be as simple as planting a tree or composting your food waste. Email a photo of your activity and a short write-up so we can share your love with others.

Send us your results before 14 March 2009

Tell us how your pledge efforts went. Please e-mail photos and a short write up of how you fulfilled your Valentine Pledge to Mother Earth.

Efforts will be highlighted to share experiences.
